Francisco received scholarship study English in the United States, he have a difficulty time to decide he should whether attends the English program at Miami Community College in Miami, Florida or whether Rocky Mountain College in Denver, Colorado. It will be a lot cheapest to him to go to the community college, but he realize that him living expenses would be a lot of more high in the city. Both of school has a excellent reputation, but rocky mountain was very smaller school with a best student/teacher ratio, if he go to the community college, he will not be as far away from home; he could go to home more oftener. He also thought how he would spent his free times. He might be more happy, comfortable, relax in the mountain, finally deciding to attend Miami Community because of the temperature is warm in the Florida and he used to warmly weather and water sports.
